Year of the Ox starts 1/26/2009 to 2/13/2010. People born in the Year of the Ox are patient, generally easy-going, often quite confident and are known to be inspiring.

They are concise and speak most often when it really matters; loyal to those they love and have excellent memory. They hate to fail or be opposed and may have fierce tempers. They tend to see things as black or white. It is said “never cross an Ox”!

They can complete any task with enduring physical and vigilant mind. In fact, the Ox can often be seen patiently plodding away ... long after everyone else has dropped from sheer exhaustion!

Ox people are most compatible with Snake, Rooster, and Rat people. Good with their hands, usually successful as doctors or surgeons, engineering/construction managers, army generals or business leaders.
